

Relevant Experience

April 2022 - present | Web Developer

SGY Agency

- Introduced Vue JS for developing Engagement Tools (ETs) leveraging a central state managements system with a CSS library to scaffold applications reducing build time and increasing efficiency for styling applications
- Lead the development of a financial API using Serverless technology which is now used for all ETs and is now in a second major release
- Introduced AWS Code Deploy to remove bottlenecks and improve deployment efficiency. Performed audits to speed up the build and load time while also increasing maintainability and future-proofing of code bases
- Actively involved in the improvement / maintenance of various CMS platforms for large and small clients
- Migrated existing WordPress sites from multiple reseller servers and migrated SVN repositories to BitBucket, saving the company on hosting and costs from the expensive Beanstalk VC service

Nov 2019 - April 2022 | Front End Developer

DCode Group

- Collaborated with stakeholders, developers and designers to build custom solutions that meet business requirements and goals
- Developed application interfaces and custom CMS websites using SCSS, Vue and Laravel
- Delivered features based on spec docs and applied bug fixes received from error reporting platforms (BugHerd, Kanopi widget)
- Lead the development of the company preset package to scaffold front end components

Oct 2018 - Nov 2019 | Front End Designer / Web Developer

Blick Creative

- Developed custom WordPress themes following design concepts
- Liaised with account managers to provide quotes, define project scopes and milestones
- Created and tested EDMs ensuring layouts display correctly on e-mail clients programs and devices

April 2018 - Oct 2018 | Developer

IE Digital

- Created the Silicon Block website to promote IE's agile workshops; integrating a CRM service to manage attendees and the Eventbrite API to display dynamic event data
- Worked on projects using React and an internal CSS library

Education

2015 Masters of Multimedia

Swinburne University,
Hawthorn Campus

2010 Bachelor of Multimedia & Digital Arts

Monash University, Caulfield
Campus

Awards

2014 Top Student in a Unit Prize | DIG80003 Multimedia Project

Swinburne University

Testimonial

Thank you Mark Condello,

*For your hard work and
commitment as our Web
Manager & Developer.
Your efforts have contributed
to our growth and have
helped us support the vital
peacebuilding, human rights
and development work of
diaspora organisations in 2016.*

**Denise Cauchi - Director
Diaspora Action Australia**

request.

Skills summary

Technical

- Usage of EC2, S3, SES, Lambda, DynamoDB, CodeDeploy and CloudWatch AWS services
- Experience building re-usable components to repurpose existing logic and interactivity
- Knowledge of Linux systems for hosting Apache web servers
- Focus on writing DRY easy to read and commented code
- Version control with GitHub and BitBucket leveraging GitFlow branch strategies
- Experience working on legacy projects which have not been maintained or documented
- EDM development with HTML tables and popular mail campaign services

Knowledge

Programming

- Javascript eS6 knowledge combined with modern UI libraries such as Vue and React
- Knowledge of building CRUD applications for APIs using Serverless technology
- Experience consuming and displaying API data in appealing ways from various sources
- Experience structuring complex PHP application with Laravel & Silverstripe ORMs
- Exposure to MySQL database relational design
- Strong HTML and CSS/SCSS skills for responsive interface design

Professional

- Strong problem solving and planning expertise while working on Agile projects
- A mind-set for innovation to increase efficiency, reduce bottlenecks and knowledge sharing
- Ability to work autonomously and manage projects under tight deadlines / constraints
- Attention to detail with working from briefs, designs, specification docs and user stories
- Great communication skills both written and verbal. Excellent customer services skills, including client interface
- Flexible and versatile to quickly learn new systems and technologies

Software

- Cross browser and OS testing / bug fixes using Browserstack, BugHerd, Sentry and error reporting platforms
- Site building with WordPress, Squarespace, Silverstripe, CraftCMS and more
- Extensive usage of Adobe, Sketch and Figma
- Experience using Microsoft desktop publishing applications
- Comfortable with various project management tools i.e Trello, Jira, Treehouse etc
- Coding in VS Code and Sublime text

“ *I am a lifelong learner, motivated to innovate and extend my skills, knowledge & capabilities.*

I strive for greater efficiencies and am constantly looking to find new ways to optimise work-flows and performance.

I believe data driven decisions produce the best outcomes and am excited by what the future brings with advancements in science & technology.
